

SECTION 20. FEE RESOLUTIONS

20.45 WATER AND WASTEWATER CONNECTION FEES AND USER CHARGES

A. PURPOSE. To set rates, fees, and other charges for services furnished by the Seminole County Water and Wastewater System ("Systems) that are just and equitable to all classes of consumers served and properties benefited by the Systems, and to reasonably recover the costs of serving the various classes of consumers and properties benefited thereby and to comply with the provisions of the County's Bond Resolutions relating to the Systems' bonded indebtedness including, without limitation, the rate covenant and additional bonds tests set forth therein.

B. DEFINITIONS. For purposes of this Section, the definitions as set forth in Section 270.182, Seminole County Code, are hereby adopted.

C. CONNECTION FEES AND GENERAL CONDITIONS. Connection fees for water and wastewater service are hereby established and based upon the estimated amount of water usage and wastewater flow generated by a building or a development on an average daily basis as computed for a one (1) year period as proposed by the Applicant and agreed to by the Department in accordance with Water and Wastewater Service Capacity Guidelines set forth in Exhibit A, attached hereto and incorporated herein. Connection fees for water and wastewater service shall not be waived for any reason or condition; provided, however, that no connection fees shall be assessed for the construction, alteration or expansion of a private or public school.

D. WATER SERVICE CONNECTION FEES. The water connection fee is a one time charge for water predicated on the costs of pumping, treatment, transmission, plant capacity, and associated capital costs. Water service connection fees shall be computed based upon estimated average daily consumption utilizing capacity factors approved by the Department and outlined in Exhibit A. The minimum amount of purchase shall be one (1) equivalent residential connection (ERC) at the rate set forth in Exhibit B. This is equivalent to the capacity requirements of a single family residence. If water service is to be provided from an entity other than the County, the County may require a fee in addition to the water service connection fees to recoup the actual cost of the service provided by the other entity.

E. WASTEWATER SERVICE CONNECTION FEES. The wastewater service connection fee is a one time charge for wastewater predicated on the costs of collection, treatment, effluent disposal, plant capacity, and associated capital costs. Wastewater connection fees shall be computed based upon estimated average daily flows utilizing capacity factors approved by the Department and outlined in Exhibit A. The minimum amount of purchase shall be one (1) ERC at the rate set forth in Exhibit B. This is equivalent to the capacity requirements of a single family residence. If wastewater service is to be provided from an entity other than the County, the County may require a fee in addition to the wastewater service connection fees to recoup the actual cost of the service provided by the other entity.

F. PAYMENT OF CONNECTION FEES. An Applicant shall apply to the Department to purchase water service, wastewater service or both. Based upon the amount of water service demand, wastewater service demand, or both, estimated by the Applicant and agreed to by the Department, the Department shall allocate water service capacity, wastewater service capacity, or both, and reserve said capacity for the Applicant pursuant to a utility service agreement. Fees as set forth in Exhibit B shall be due and payable at the time a certificate of occupancy is issued. Additional connection fees may be assessed in accordance with the terms and conditions of the Seminole County Water System, Wastewater System, and Reclaimed Water System Rate Ordinance. The Department may authorize a single residential, single family connection fee to be paid over time on a form and pursuant to terms approved by the Director.

G. INDUSTRIAL WASTEWATER DISCHARGE PERMIT FEES. Some industrial users may be required to obtain a permit pursuant to Seminole County Code, Chapter 270, Part 8, Seminole County Wastewater System User Rules (“Industrial Pretreatment”). Such users shall apply for a permit and pay a permit fee according to the schedule set forth in Exhibit B, attached hereto and incorporated herein.

H. WATER SERVICE INSTALLATION CHARGES.

(1) Potable and Non-Potable Service Connections for Residential, Single Family Service.

(a) There shall be a charge collected in advance from each Applicant requiring potable or non-potable service connections from the County. The charges shall be for each installation of a service connection (Tap-In) and meter, including backflow preventer, fittings and meter box (Meter Installation) for connection to the County’s potable or reclaimed water systems. The charges shall be in addition to the Water Connection Fee and the monthly charges for service.

(b) If the Tap-In has already been installed by an entity other than the County, and subsequently dedicated to and accepted by the County, the Applicant shall be charged the Meter Installation Charge.

(c) If the Applicant performs the Meter Installation for a connection up to and including one inch (1”), the Applicant may purchase the materials from the County at the rates set forth in Exhibit B. For installations greater than one inch (1”), the Applicant shall be billed for the actual cost of the Tap-In and materials, as determined by the County.

(d) For County installed connections requiring a Meter Installation of one inch (1”) or less, the charges for installation or connection to the County’s potable or non-potable water systems may be increased when any size connection or Meter Installation requires larger than typical service lines, or service connections require the crossing of streets, roads, easements, or highways, or it has been determined by the Department that the cost of installation is extraordinary or not typical in nature. The Applicant shall pay the estimated costs required to perform the installation as determined by the Department. A County installed connection shall be defined as those requests for connection from an Applicant for the purpose of providing water service to

one single residence. The Applicant shall pay or be refunded an amount equal to the difference between the actual cost of the installation and the estimated costs.

(e) For connections requiring an installation of a meter size greater than one inch (1”), the charges for installation or connection to the County Water System shall be based on the estimated costs of materials, labor, and overhead, as determined by the Department. The Applicant requesting the installation and connection shall pay an estimated charge for the connection of service as required by the Applicant and shall be charged or refunded an amount equal to the difference between the actual cost of the installation and the estimated charge. An Applicant may elect to purchase the meter elsewhere if the required meter size exceeds two inches (2”); provided, however, that such meter must be approved by the Department prior to installation. The Applicant shall be responsible for separately purchasing an approved backflow prevention device for pipe diameters larger than one inch (1”).

(f) An Applicant for irrigation meter(s) shall be responsible for the purchase and installation of backflow prevention devices as approved by the Department.

(2) Potable and Non-Potable Connections for Residential, Multi-Family, Commercial and Industrial Services.

(a) Each Applicant shall be responsible for the design, permitting, construction, and inspection of the service connection, including, but not limited to, the water main tap, service line, valves, corporation stop, meter, meter box, curb stop, and backflow prevention assembly by a plumber or certified underground utilities contractor and any construction requiring street, road, or highway crossing. Connections to the County’s potable or reclaimed Water Systems or any construction within County easements, property, or rights-of-way shall be performed by properly licensed and qualified individuals or contractors as determined by the County.

(b) A site plan, including details, shall be submitted to the Planning and Development Division of the Economic and Community Development Services Department for approval prior to application for service. The site plan shall include a site location map and show the location of the proposed connection point, the property line, tap size, service line size, meter size, backflow prevention assembly size and type, meter set location, and any other information requested by the Department to facilitate review and approval. The details and materials of construction shall conform to applicable Seminole County Water and Wastewater standards.

(c) Irrigation meters, including reclaimed water irrigation meters, shall be installed by the Applicant at the Applicant’s expense utilizing the criteria set forth in the Seminole County Land Development Code by a plumber or certified underground utilities inspector.

I. METER TESTING. Meter testing shall be performed at the Applicant’s request in accordance with the following guidelines:

(1) Meter Test Request. When an Applicant requests a field test of the water meter requiring a field visit to the Applicant's service location, the County shall apply a charge to defray the cost of testing in accordance with Exhibit B.

(2) The charge shall be retained by the County if the test shows that the meter registers within the acceptable accuracy limits as established by the Department. If the meter is determined by the County to register above the acceptable accuracy limits, the meter test field service charge shall be refunded, an adjustment made to the bill for the proper amount of water consumption, and the meter replaced by the County at no charge to the Applicant.

(3) For a test of meters not performed as a field service visit, the County shall charge for the test based upon actual costs incurred as determined by the Department.

J. ACCOUNT DEPOSITS FOR WATER SERVICE, RECLAIMED WATER SERVICE AND WASTEWATER SERVICE.

(1) An Applicant shall complete an application on a form approved by the Department and pay an initial deposit as set forth in Exhibit B prior to the initiation of water service, reclaimed water service, or wastewater service for each equivalent residential connection to be serviced. Realtors and property managers may elect to pay a blanket deposit as set forth in Exhibit B. Blanket deposits are released upon the request of the Applicant, once all accounts are final and paid in full.

(2) The Department may waive deposit requirements for a Residential, Single Family Applicant when the Applicant provides a letter from the Applicant's previous water, electric, or natural gas provider that the Applicant has not had any violation as described in Section 20.45(J)(3).

(3) Applicants with good payment history accounts for the previous twelve (12) month period shall be entitled to a refund of deposits. For purposes of this Section, a "good payment history" shall be defined as an account with:

- (a) no disconnections for non- payment; and
- (b) no dishonored payments charged to the account; and
- (c) no delinquent payment notices.

(4) Applicants using fire hydrants as a water supply shall complete an application on a form approved by the Department and pay a deposit for utilization of the temporary hydrant meter prior to initiation of services as outlined in Exhibit B.

(5) For any period in which the Applicant maintains an account, the Applicant whose account has been disconnected for non-payment three (3) or more times, or have issued to the Department two (2) or more dishonored payments shall pay an additional deposit as set forth in Exhibit B prior to restoration of service.

K. INITIATION AND SERVICE CHARGES FOR WATER SERVICE, RECLAIMED WATER SERVICE AND WASTEWATER SERVICE.

(1) An Applicant shall be charged a fee to initiate utility service at a new location or to reestablish utility service at an existing location. These charges shall appear on the first bill for utility service. The initiation of service charge shall be in accordance with the schedule of fees shown on Exhibit B.

(2) When service is discontinued by the Department because of non-payment of amounts due, the County shall charge an account reconnection fee to reconnect the discontinued service as set forth in Exhibit B. The charges for the reestablishment of service shall be paid by the Applicant prior to reestablishment of service.

(3) At the request of the Applicant, a turn on or turn off service charge applicable to active accounts shall be charged prior to the initiation or discontinuation of service on a temporary basis. The fees for these services shall be in accordance with Exhibit B.

L. WATER SERVICE CHARGES.

(1) Applicants shall pay a monthly basic water service charge and volumetric service charge based on metered water consumption, if any, for such service as set forth in Exhibit B. In the event of no consumption, the basic water service charge shall be charged. The basic service charge may be prorated for the initial month and final month when the initial and final period are less than a month. The Department may authorize delinquent service charges to be paid over time on a form and pursuant to terms approved by the Director.

(2) Applicants using fire hydrants shall meter the consumption pursuant to County requirements and pay monthly basic service and volume charges as set forth in Exhibit B. A meter and backflow preventer assembly device shall be provided by the County upon application for hydrant service and payment of the temporary hydrant meter deposit. Deposits shall be refunded if the meter and backflow assembly device are returned undamaged and in good condition.

(3) Any unauthorized, unmetered connection to fire hydrants will be subject to an unauthorized connection charge in accordance with Exhibit B.

(4) Applicants with commercial private fire lines shall pay a monthly service charge associated with the cost of providing back-up facilities in the Water System.

(5) Applicants who reserve water service capacity shall pay a monthly basic service charge per ERC for maintenance of infrastructure within the development for which capacity is reserved. Such charge shall be assessed for each remaining unit or ERC which has not yet been issued a building permit within twenty-four (24) months from the date infrastructure is accepted by the Department.

(6) Wholesale water fees shall be based upon metered consumption and the wholesale water rate in accordance with Exhibit B.

(7) In the event the County adopts a resolution pursuant to Part 5, Chapter 270, Seminole County Code or its successor, declaring a water shortage by the St. Johns River Water Management District or regulating water supplies or conservation programs as deemed necessary, a surcharge as set forth in Exhibit B shall apply to the schedule of water service charges for residential, single family units. Accordingly, multi-family units, apartments, condominiums, motels, hotels, and any and all other dwelling units, and commercial users shall be charged a surcharge by the County pursuant to Exhibit B for consumption over ten thousand (10,000) gallons per month or any fraction thereof.

M. WASTEWATER SERVICE CHARGES.

(1) Applicants shall pay a monthly wastewater basic service charge and volumetric service charge based upon metered water consumption, if any, for such services as set forth in Exhibit B. In the event of no consumption, the basic wastewater service charge shall be charged. Volumetric service charges shall not be assessed for residential, single family units for metered water consumption in excess of fifteen thousand (15,000) gallons per month. The basic service charge may be prorated for the initial month and final month when the initial and final period are less than a month. The Department may authorize delinquent service charges to be paid over time on a form and pursuant to terms approved by the Director.

(2) Applicants who reserve wastewater service capacity shall pay a monthly basic service charge per ERC for maintenance of infrastructure within the development for which capacity is reserved. Such charges shall be assessed for each remaining unit or ERC which has not been issued a building permit within twenty-four (24) months from the date that infrastructure is accepted by the Department.

(3) Wholesale wastewater treatment shall be based on metered wastewater flow and the wholesale wastewater rate in accordance with Exhibit B.

(4) Surcharge for High Strength Wastewater. A surcharge shall be charged for disposal of wastewater with an abnormally high biochemical oxygen demand (BOD), total suspended solids (TSS), or other parameters as established by the Industrial Pretreatment Ordinance in accordance with Exhibit B.

N. RECLAIMED WATER CHARGES. Applicants shall pay a monthly basic reclaimed water service charge in addition to a volumetric rate based on metered reclaimed water consumption for such service as set forth in Exhibit B. The Department may authorize delinquent service charges to be paid over time on a form and pursuant to terms approved by the Director.

O. RECONNECTION CHARGES.

(1) If any portion of a bill for water service, wastewater service, reclaimed water service, or any deposits or other charges remain unpaid by the next billing date, service shall be disconnected by the Department and the Applicant whose bill is past due shall not have service reconnected until all past due charges and deposits are paid including applicable account reconnection fees as set forth in Exhibit B.

(2) If an Applicant tenders payment on an account with a dishonored payment, the Department shall consider the payment void, the previous balance reinstated, and charge a fee in accordance with Exhibit B in addition to reconnection charges.

P. INDUSTRIAL PRETREATMENT FINES AND PENALTIES. Industrial users in violation of the Industrial Pretreatment Ordinance shall be subject to fines or penalties as set forth in Exhibit B.

Q. UNAUTHORIZED METER TURN ON CHARGE. Applicants who restore, without Department authorization, water service previously discontinued by the County shall pay a fee in accordance with Exhibit B. Service shall be disconnected until all outstanding fees and charges are paid to the County. On the third unauthorized meter turn on, the meter will be removed. In addition to all outstanding fees and charges, a material and installation charge in accordance with Exhibit B must be paid prior to the reinstallation of the meter and services being reestablished.

R. UNAUTHORIZED CONNECTION CHARGE. Applicants who connect into the County's water mains, wastewater collection mains, or reclaimed water mains without Department authorization shall pay a in accordance with Exhibit B. Service shall be disconnected until the service tap, water mains, wastewater collections mains, or reclaimed water mains are deemed acceptable by the Department.

S. OTHER REIMBURSABLE EXPENSES. In cases where Applicants request County utility personnel to perform specific utility services not the obligation of the County to perform, a fee based on actual time and materials shall be charged to recover those costs incurred by the County in performing such services. Fees for specific services are reflected in Exhibit B.

T. DISHONORED PAYMENTS. The Department shall charge a dishonored check fee for the collection of a dishonored check, draft, or other order for payment of money to the County for water, wastewater, or reclaimed water service.
